

Black Hills Mental Health Resource Guide

*"Making lives better by giving support, offering hope
and creating connections all day, every day."*

2011-2012

ABOUT THE MENTAL HEALTH RESOURCE GUIDE

Welcome to the 2011– 2012 Black Hills Mental Health Resource Guide. The Guide is being produced as an initiative of the Black Hills Mental Health Substance Abuse Collaborative and funded by the Bush Foundation and the John T. Vucurevich Foundation. This guide was established to help the consumer more readily identify and select licensed/credentialed practitioners and agencies that provide a variety of mental health services in the Black Hills area. It provides the community with easily accessible information about those services that are listed.

Organizations and/or mental health practitioners are listed throughout the guide alphabetically. There are three additional ways to find a specific resource.

To Find a Mental Health Practitioner by Name...

Search alphabetically for the last name of the person you are seeking in the **Practitioner Name Index** on page 8. Listed to the right of their name you will find a page number that will direct you to the organization with which they are associated.

To Find an Organization and/or Mental Health Practitioner by Service Category...

Search by the following service categories: Children/Adolescent Therapy, Christian Based Therapy, Abuse Issues (for children and/or adult victims and survivors), Addiction/Substance Abuse Services, Psychological Testing and Other. The names of the organizations and/or mental health professionals are listed alphabetically in the **Service Category Index** on page 2.

To Find an Organization and/or Mental Health Practitioner by City. . .

Search alphabetically in the **Location Index** on page 6 for the name of your city or the city closest to you.

Inclusion in this Guide should in no way be construed to constitute an endorsement of a practitioner, an agency, organization, or its service, nor should exclusion be construed to constitute disapproval. The information and certifications which appear in this publication were self-reported by the organizations and practitioners.

SELECTING A MENTAL HEALTH PRACTITIONER

Choosing among the many options available in mental health care can be a confusing task. As with any type of service there are basic questions that can assist you in becoming an informed consumer. Ask yourself these questions:

- * What are the critical issues for which you would like to obtain help and what are the desired results you hope to see?
- * Do you have a preference regarding type of setting (i.e. inpatient, outpatient, group therapy, etc.) or type of therapeutic approach?
- * Is there a particular time of the day or week that would be best for you in arranging an appointment?
- * Is there coverage offered by your insurance, health care plan, or employer that can offset some or all of the cost of treatment?

With this information in mind, select two or three mental health practitioners and call for a short phone interview. Briefly describe your issues or goals and ask if the provider is skilled in these areas. Ask a few questions about the provider's background and practices.

- * What therapeutic approaches and techniques does she or he most frequently use?
- * How will therapeutic goals be established? How will you know when therapy is complete?

After talking with a potential practitioner, ask yourself:

- * Did you feel a sense of confidence in this person?
- * Did the practitioner's approach seem to make sense to you?
- * And most of all, did you feel comfortable talking with this practitioner?

Glossary of Abbreviations

This is a key to abbreviations used throughout the listings, primarily for professional accreditations and certifications.

ABPN	American Board of Professional Neuropsychology
ACSW	Academy of Certified Social Workers
ALSW	Associate Licensed Social Worker
BA	Bachelor of Arts
