

NETWORK OF CARE

Levels of Impact

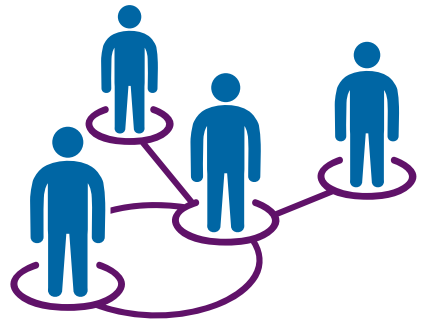

JOIN HCNC!

Purpose

Build a coordinated social service system to provide services to individuals and families in a more effective, efficient, and caring manner.

Mission

To provide data and analysis designed to help the community serve those in need and to help make effective referrals to serve the whole person.

Individual

Agency

Community

- Quicker connection to appropriate services
- Telling story only once
- Screening identifies additional needs
- Elevated level of care and satisfaction
- Access to comprehensive resource database
- Streamlined referrals and communication between providers
- Promotes rapid identification of social needs
- Less duplication of efforts
- Outcome data for measuring impact
- Community data to inform policy, planning, and investment
- Identification of unmet needs and barriers to access services
- Infrastructure better serves community members and avoids duplication
- More equitable distribution of resources
