Supporting Operations and Resiliency for Businesses

The following policies **should** be in place for all businesses not already under the “No Linger” Ordinance (Ord. 42-20).

Enforce social distancing practices of at least 6 feet between all employees and patrons.

Provide physical barriers between employees and patrons where appropriate.

Develop a plan to clean and disinfect high-touch areas such as counters, table tops, desks, railings, door handles, etc.

Provide cloth face coverings to all employees where other social distancing measures are difficult to maintain.

Implement daily health screening protocol per CDC guidelines for all employees.

Businesses and individuals can call 2-1-1 if they have questions or concerns about COVID-19 and their workplace.
